MSc MASTER OF SCIENCE

Contribute to responsible financial decisions

"Positioned in an innovative and differentiating high-impact market, the Sustainable Finance programme is unique in France. It trains financial professionals with a vision of social and environmental responsibility, that is then transmitted to the companies in which they are employed with a high level of performance."

Luis REYES-ORTIZ, head of Sustainable Finance programme

2nd
Eduniversal 2023 French ranking

DURATION: 1 OR 2 YEARS | **FORMAT:** FULL-TIME | **LANGUAGE:** ENGLISH

CAMPUS: PARIS | **INTAKE:** SEPTEMBER | **DOUBLE DEGREE:** MSc and diploma recognised by the Ministry of Higher Education and Research

HIGHLIGHTS

A GROWING MARKET

The Sustainable Finance programme is in an innovative, differentiating market. It trains professionals in asset management and extra-financial analysis, and gives students the ability to contribute to responsible and sustainable-savvy decision making. The programme provides a profile that is increasingly in-demand by financial and non-financial companies integrating new ethical challenges into their strategies. Given the growing importance of ESG and extra-financial consulting for businesses, the programme prepares students by paying particular attention to ESG data, reporting, green bonds, biodiversity, climate risk and corporate social responsibility among others.

A DUAL EXPERTISE

The programme allows students to acquire combined financial and extra-financial expertise with a focus on data, which are critical as careers in the financial sector shift from plain asset management to an increased emphasis on social and environmental issues in investment decisions. All training tracks in this Master of Science include courses, lectures, international workshops, career conferences and seminars that address investor responsibility and the inclusion of extra-financial, performance and impacting factors in decision-making. Joining this programme means making the choice of today's and tomorrow's finance with an innovative approach.

SUPPORTED BY A RESEARCH CHAIR

This MSc is supported by the research chair CANDRIAM / KEDGE "Finance Reconsidered: Addressing Sustainable Economic Development". CANDRIAM is a European multi-specialist asset management company, pioneer and recognised leader in responsible investment. Managing about €115bn of assets under management with a team of more than 500 professionals, it operates in Luxembourg, Brussels, Paris and London, serving clients in more than 20 countries on 4 continents. CANDRIAM offers innovative and diversified investment solutions in bonds, equities, absolute performance strategies and asset allocation.
