MSc MASTER OF SCIENCE

Sustainability and long-term value creation in the supply chain

"Considering the supply chain as an interconnection of businesses, this MSc explores the various issues involved and how to manage them effectively. The comprehensive mix of theoretical and practical courses ensures that students acquire all the skills they need to pursue a global career in the global supply chain. Not only will they have an in-depth knowledge of the sector, but they will also be able to implement sustainable supply chain solutions in all business activities across the globe."

Marie-Laure FURGALA, director of Global Supply Chain Management programme

1st
Eduniversal 2023
French ranking
Logistics category

ACCESS: 3-OR 4-YEAR BACHELOR'S DEGREE, VAPP (validation of personal and professional experience)

DURATION: 1 OR 2 YEARS | **FORMAT:** FULL-TIME | **LANGUAGE:** ENGLISH

CAMPUS: BORDEAUX | **INTAKE:** SEPTEMBER | **DOUBLE DEGREE:** MSc and diploma recognised by the Ministry of Higher Education and Research

HIGHLIGHTS

HIGH QUALITY PROJECT-BASED LEARNING

To train experts with a global vision, the course relies on action-learning experiential modules. Students have the opportunity to take part in workshops, an in-company consultancy project, a full-time internship and a professional forum. They also complete international certifications linked to key issues in the sector, including IT with coding skills, and data management with TOSA Excel. Students also take a Bilan Carbone® licence, which they can later transfer to their companies.

SHAPING SUSTAINABLE STRATEGIES

To give future graduates the skills to take advantage of sustainability and create long-term value, all courses are connected to CSR issues. By the end of the course, they will have an in-depth understanding of the risks and opportunities associated with developing sustainable supply chain strategies. As a result, they will be able to ensure the required quality and supply continuity of their products and services, and make a significant impact within their company or newly created business.

WORLD-CLASS FACULTY AND RESEARCH

The programme's international reputation also lies in its research team and publications. Courses draw on KEDGE's Research Centre in Supply Chain Management, CESIT, bringing together academic research, pedagogy and corporate partners. Our internationally renowned teacher-researchers make a major contribution to the curriculum, while at the same time providing students with direct access to the latest advances in the field.
